

AEROSPACE MANUFACTURING

LUNCH & LEARN SERIES

AN INITIATIVE 41 PROGRAM

THE FUTURE OF DRONES IN WISCONSIN

How the largest, fastest growing sector of the aviation industry will impact our state

A Procurement Technical Assistance Center (PTAC)

Presented by:

PETER MENET

CEO OF MENET AERO INC. & VICE PRESIDENT OF THE UAS ADVOCACY NETWORK

Today there are four times as many drones registered with the FFA than the total manned aircraft registered in history.

The nature of the drone industry is fueling rapid growth with seemingly endless applications and opportunities. However, there exists a significant gap between market promises and reality.

This session will focus on:

- Opportunities for the drone industry across the globe and in Wisconsin
- What's hype and what's reality
- How the aviation lessons of the past 115 years can help mainstream drone technology today

FRIDAY

OCT. 26, 2018
