## Oshkosh Plating Technologies, Inc. Is One of Top Finishing Shops in North America

*Products Finishing* magazine names Oshkosh Plating Technologies to its 'Top Shops' list

CINCINNATI, Ohio – Oshkosh Plating Technologies, Inc. has been named one of the best finishing shops in North America, according to an industry benchmarking survey conducted by *Products Finishing* magazine, a trade publication which has covered the industry since 1938.

The magazine conducted an extensive benchmarking survey that analyzed hundreds of finishing companies in several different areas, including Current Finishing Technology, Finishing Practices and Performances, Business Strategies and Performances, and Training and Human Resources.

Only the top 50 shops were given the honor of being a *Products Finishing* magazine 'Top Shop' based on a scoring matrix in those four criteria.

Oshkosh Plating Technologies has established itself as one of the best finishing operations in the industry," said Tim Pennington, editor of *Products Finishing* magazine. "The criteria we used was very stringent, and only the top finishing shops that excelled in all four areas made the list. Oshkosh Plating Technologies is in rare air when it comes to finishing operations."

Oshkosh Plating Technologies is located at 1228 W. South Park Ave., Oshkosh, WI, and offers zinc electroplating services. The company is RoHS and REECH compliant with ISO 9001:2015 certifications. Oshkosh Plating has direct shipping and logistics capability, as well as extensive technology to handle complex engineering challenges in the finishing industry.

"We are extremely excited and pleased to be named one of *Products Finishing* magazine's 'Top Shops'," said Aaron Johnson, owner of Oshkosh Plating. "Our employees and management team have worked very hard to be the best in the industry, and to provide our customers with quality service."
